

City of Gunnison Automated Refuse System Update

The City of Gunnison is finally taking delivery of the automated refuse trucks. The used truck purchased by the city was delivered on Wednesday December 9th and the new truck is scheduled for delivery on Wednesday December 16th. Refuse crews will be trained on December 17th and 18th. The delivery of containers to customers will begin Monday December 21st and will be delivered according to refuse pick up day. Complete delivery of all containers may take 4 – 6 weeks. When your route is scheduled for container delivery, your refuse will be picked up as normal and crews will place your new container in a location clear of all overhead electric, cable TV and phone lines. Please take note of this location and as you place your containers out each week for pickup please take care not to place them near overhead lines. Once your new container has been delivered, the current containers will no longer be picked up. If you have questions please call 641-8020.
